“TRAVELLING – IT LEAVES YOU SPEECHLESS, THEN TURNS YOU INTO A STORYTELLER”

Ibn Battuta - Moroccan scholar

My travels tell the story of the different types of wood that crossed my path. Ancient boards, colourful boats and gigantic tabletops, all of which made from timber. I was seized by a new passion.

Today we own several hundred precious wood panels from every corner of the earth. We display these masterpieces in our showroom and we also reproduce them in countless variants in our factory.

An idea unfolds ...

Arno Stainer

HOW SUN WOOD WORKS

1. We collect the most beautiful timber from around the world
2. We digitalize its pattern with our in-house 3D scanner
3. We work the surface of the wood by hand to create the natural appearance and wooden touch
4. You select your favourite model and we will refine it by a combined coating and printing technique with your unique design

RECLAIMED WOOD TABLES

All reclaimed wood tables are manufactured from locally harvested solid spruce wood. The table tops are brushed in order to achieve a natural feeling surface. All table tops and table legs can be freely combined.

TABLE EXTENSION

We offer a table extension for all SUN WOOD designer tables in our full range of decors. This extension can be attached on one or both ends of the table, extending the table by two places.

Easy and quick installation: Thanks to a very simple but stable technology. Up to two extensions can be fixed in just a few easy steps. The table extension is inserted into the existing rails and fixed with two hand screws.

NATURAL WOOD FORM

SUN WOOD's „natural wood form tables“ are massive wooden tables with very special shapes. The table tops are reproduced as they occur in nature. Special shapes, branch cords and tree edges are extra features of this natural wood table.

COFFEE TABLES

You can choose each available SUN WOOD model for your Coffee table. Modern, traditional and affordable. The SUN WOOD coffee tables are also available in special sizes upon request. All table legs are individual with all table plates combinable.

“

Each coffee table is unique – design your table according to your own wishes.

CONCRETE & RUST DESIGN TABLES

The SUN WOOD Concrete Design Table is modelled after the look of a raw concrete surface, and impresses with it's realistic look and feel. Iron and steel stand for stability and durability but they are not sustainable. Rusty, orange-colored surfaces convey warmth and naturalness.

BEDROOM

The unique solid wood bed from SUN WOOD is handmade according to your individual wishes. The emphasis of the natural grain of the wood is expressly desired. Thus the surface of all wooden parts is brushed.

ASSAMBLY: The bed frame is easy to assemble and is fixed with a few screws. Due to the solid wood construction, all beams of the bed frame are supported by the wood itself. A few screws provide additional, durable assemblage.

SLIDING DOORS

Sliding doors by SUN WOOD as a design element or room divider.

The door is fastened to a sliding system and can be easily fixed on the wall.
